

ABOUT US

If you are looking for pure raw honey, this is the place for you. The Bees Knees is a small, local, and all family operated farm based out of Three Rivers, CA. Our honey is extracted and run through a sieve to remove large particles of wax and bee parts, straight into the bottle – no pasteurizing, no additives. We primarily focus in honey sales, but also have multiple bee products such as bee pollen, beeswax products, honeycomb, and more!

They are most known for their raw and unfiltered honey that is locally sourced and produced. Our honeys come in multiple flavors and forms of honey the customer can purchase currently.

509 N Green View Ct.

FAMILY OWNED

We emphasize the importance of not only the quality of our products, but the authenticity. We breed healthy productive bees and place thousands of colonies at pristine wildflower ranch locations throughout central California. We are so grateful to provide raw honey in numerous rare varieties sourced from our own bee hives, and we are passionate about protecting the pure depth-of-flavor present in natural honey.

FUN FACTS:

Due to its sugar content, honey kills most bacteria by osmosis - due to the moisture content virtually no organism can survive in it.

Unlike sugar, honey contains proteins, vitamins, and minerals!

Bees assist in preventing the honey from spoiling by flapping their wings to remove moisture from the honey - which preserves it.

UNFILTERED LOCAL RAW
